JENNIFER GENNARI

Virtual or In-Person Workshops
These 40 to 60-minute online on in-person classroom workshops begin with a presentation on one of the focused topics below, an introduction to Jen's books, and time for questions and sharing. Jen's workshops are best for grades 3-6.

Be a Reporter: Notice, Ask, Listen – Jen will introduce three reporting skills to spark creativity. She will ask students to notice what's around them and take notes about those telling details; ask questions about things that make them curious; and listen to what people share.

Be an Editor: Read, Replace, Describe – Jen will introduce three editing tools to improve student writing. She will show how to replace plain verbs with strong action; to add comparisons to deepen understanding; and to find missing words and fix long sentences by reading aloud.

Design Your Own – Attributes of the above workshops can be mixed and matched. Please contact Jen to discuss what your young writers need!
